

Marcus Chen

Applied AI Engineer

marcus.chen@email.example · +1 (206) 555-0198 · Seattle, WA

Professional Summary

Applied AI engineer with 5 years of Python experience building NLP and retrieval systems. Comfortable with Transformers fine-tuning, RAG pipelines, and FastAPI services. Seeking a senior role focused on LLM adaptation and production ML.

Experience

Applied AI Engineer — BrightQuery (2022 – Present)

- Fine-tuned open LLMs (Mistral-7B, Llama-3-8B) with LoRA for customer-support answer ranking; +18% NDCG@10.
- Built hybrid retrieval (embeddings + BM25) over product docs using sentence-transformers and Qdrant.
- Shipped FastAPI microservices for scoring and reranking; containerized with Docker on GCP Cloud Run.

Data Scientist / ML Engineer — RetailPulse (2020 – 2022)

- Trained classification and NER models in PyTorch for review and ticket analytics.
- Automated data prep pipelines and basic experiment tracking with MLflow.
- Collaborated with backend team to expose models via REST APIs.

Python Developer — StartupForge (2019 – 2020)

- Developed ETL jobs and internal tools in Python for a B2B SaaS product.
- Introduced type hints and pytest coverage for core modules.

Skills

Python, PyTorch, Hugging Face, LoRA/PEFT, sentence-transformers, FastAPI, Docker, GCP, Qdrant, MLflow, SQL, pytest, Git

Education

- B.S. Computer Science — University of Washington, 2019

Projects & Portfolio

- RAG chatbot for internal HR policies using Llama-3 and FAISS.
- Personal fine-tuning notebooks for DPO preference tuning (side project).
