

Jake Owens

Junior Python Developer

jake.owens@email.example · +1 (303) 555-0133 · Denver, CO

Professional Summary

Recent graduate and junior Python developer with 1.5 years of professional experience. Strong fundamentals in web APIs and data scripts; coursework in ML but no production LLM or fine-tuning experience. Looking to break into applied AI roles.

Experience

Junior Python Developer — MountainApps LLC (2024 – Present)

- Maintain internal Flask/FastAPI tools for customer support workflows.
- Write Python scripts to clean CSVs and generate weekly reports.
- Participate in code review and learn pytest and typing practices.

Software Engineering Intern — PeakSoft Solutions (Summer 2023)

- Assisted senior engineers with bug fixes in a Django monolith.
- Wrote documentation for onboarding scripts.

Skills

Python, Flask, FastAPI (beginner), Django, SQL, pandas, Git, scikit-learn (coursework), HTML/CSS

Education

- B.S. Computer Science — Colorado State University, 2024
- Relevant coursework: Machine Learning, NLP Intro, Data Structures

Projects & Portfolio

- University project: sentiment analysis on movie reviews with scikit-learn.
- Personal site and Todo API tutorial clones; no public LLM fine-tuning work.
